

# Engaging Key Partners to Design and Conduct High Quality Clinical Research

## 1.5 Day Short Course

This short course will focus on methods to gather information critical to the success of clinical research from potential participants, caregivers, clinicians, and other important stakeholders. Upon completion of this short course, attendees may gain skills and strategies that will enhance the success of their research proposals, ease the execution of studies, and generate findings that can have real world impact. Course instructors include UW-Madison faculty and national leaders in designing high quality clinical research informed by stakeholders.

**WHEN:** Tuesday, June 5, 2018, 12-5PM  
Wednesday, June 6, 2018, 8AM-4:30PM

**WHERE:** Health Sciences Learning Center  
750 Highland Avenue  
Madison, WI 53705

**WHO:** Investigators or research team members (including graduate students or research specialists) who have received, or are considering research projects that would benefit from stakeholder engagement

**COSTS:** \$50 registration fee per person or \$100 for research teams up to 4
