

THE INSIDER PANEL: HEALTHCARE SYSTEM STAKEHOLDERS' PERSPECTIVE ON RESEARCH COLLABORATION

Panelists

Sandra Kamnetz, MD is Vice Chair of Clinical Care of Family Medicine and Community Health at UW Health and a practicing physician at Yahara Clinic. She has contributed extensively to the redesign of primary care at UW Health, having published and presented on compensation models, diabetes care, and self-rooming. She is a member of the Primary Care Academics Transforming Healthcare collaborative (PATH) and has been repeatedly recognized as a top doctor and received a Faculty Excellence Award.

Stacey Novogoratz, BA is Vice President of Healthcare Transformation at MetaStar. She leads the Healthcare Transformation department, which conducts a variety of work with hospitals, nursing homes, clinics, and communities across the state, primarily funded through state and federal contracts. At MetaStar since 2010, she played a key role in the design and oversight of WHITEC, the Regional Extension Center for Wisconsin. MetaStar collaborates with health care payers and providers to effect positive change in health and health care.

Tammy Quall, MS, MSW is the Chief Strategy Officer at Access Community Health Centers. She is responsible for overseeing the strategic planning process and execution of strategy at Access in addition to supervision of operational functions. Her entire career has been dedicated to ensuring access to high quality health care. Access clinics are Federally Qualified Health Centers (FQHC) providing medical, dental, behavioral health care and pharmacy services regardless of people's ability to pay. Care at Access addresses the causes of poor health building stronger, healthier and more equitable communities.

Lisa Sampson, MBA is the Department of Family Medicine & Community Health (DFMCH) Research Program Manager. In her role, she provides administrative leadership to the DFMCH research enterprise and the Wisconsin Research and Education Network (WREN) a statewide network promoting and conducting primary care research and education in partnership with primary care clinicians and the communities they serve. She also provides oversight and leadership to assure greater integration among DFMCH research programs. Previously, Lisa worked in laboratory, clinical and translational research for over 17 years in the UW Department of Radiology.
