

*The Impact of the Intersectionality of Gender, Race,
and Class on Academic Medicine*
University of Wisconsin School of Medicine and Public Health
2019 Diversity Summit
January 24, 2019

Keynote Speaker:

Denise V. Rodgers, M.D., FAAFP

Vice Chancellor for Interprofessional
Programs, Rutgers Biomedical and Health Sciences

**The Inconvenient Truth About the Impact of Race, Class and
Gender on Health Outcomes**

This talk will look at health disparities nationally and locally with a focus on the outcomes of racial/ethnic minorities, women and the poor. Historical and present day contributors to adverse outcomes will be explored. Potential strategies to help eliminate disparities will also be discussed.

January 24, 2019, 4:30-7:30 pm

Reception to Follow

Health Sciences Learning Center, 750 Highland Avenue, Madison, WI

BREAK OUT SESSIONS

◆ **Exploring the Impact of Gender, Race and Class on the Academic/Professional Experience**

How does one's race, social status and gender affect success in the professional or academic environment? Hear first-hand examples of people navigating obstacles because of organizational expectations, or patterns they adopted. Learn ways to provide support for each person to achieve their highest potential in the professional and academic environment.

◆ **Exploring the Impact of Gender, Race and Class on Public Health Outcomes**

Statistics show marked differences in life expectancy, mortality, incidence of disease, and causes of death across racial, gender and social class groups. Explore the scope of these disparities, identify obstacles to health equity, and learn proven approaches to improve public health outcomes and effectively engage the community.
