Readiness Thinking And Assessment (R=MC²)

An Implementation Science Workshop

In organizations ranging from schools and healthcare settings to the military, readiness is essential for successful implementation.

Using the R=MC² approach to readiness, Wandersman will describe three approaches to measuring readiness:

- The Readiness Thinking Tool
- The Readiness Diagnostic Scale
- The Readiness Recovery Resilience approach (with exercise)

R = Readiness
M = Motivation
C² = General Capacities & Innovation-specific Capacities

22 FEBRUARY 2022
2:00 pm - 3:30 pm
